BeAble Capital
Coorporative presentation
“Science may set limits to knowledge, but should not set limits to imagination”
(Bertrand Russell)
ARE YOU A RESEARCHER WILLING TO…..

- Bring the technology to the market and make your research become useful for the society
- Offer new R&D jobs opportunities for new talent members of the scientific community
- Improve your R&D line getting private funding to develop new technologies
- Become a promoter of a technology based company
- Focus your R&D on the market in order to maximize its profitability
BeAble Capital, YOUR IDEAL PARTNER

We are a private fund specialized in tech transfer investments of high industrial technologies, and which aims to bring spanish technologies to the market through the creation of new technology based companies and the support of new companies already created.

We work together with researchers and promoters, adapting the future of the projects and the companies to their specific needs in order to create professional companies righ from the beginning.
OUR ADDED VALUE IS BEING

THE BIGGEST TECH TRANSFER FUND IN SPAIN

BeAble Capital is a €32M fund focus on high industrial technologies and endorsed by the EIF (European Investment Fund) and CDTI (Ministry of Economic and competitiveness of Spain).

NOT JUST A SIMPLE MONEY BUT SMART MONEY

We are not a tipical investment fund, we have also knowledge of science, so we are able to understand R&D development. Besides, we have an experience of more than 6 years working on it.

PRIVATE FUND FOCUS ON TECHNOLOGIES IN THE 'VALLEY OF DEATH'

We are specialist in investing in projects and companies which are in their initial stages. We invest in Proof of Concept, Seed and Early Stage phases.

ADAPTABILITY, RESEARCHERS CAN JUST FOCUS ON R&D IN A COMPANY

Researchers should have the option to decide their degree of implication in the company beyond their R&D responsibilities. This is why BeAble provides the resources to have a professional company, adapting that resources to the promoters needs.
OUR SECTORS: KETs (Key Enabling Technologies)

- PHOTONIC
- NANOTECH
- ADVANCED MATERIALS
- MICRO/NANO ELECTRONIC
- INDUSTRIAL BIOTECH
**STEPS TO FOLLOW**

1°. Due diligence of the project

- We look for technologies that have a significant competitive value for high growth markets and which are protected or susceptible to be protected.

2°. Working plan validation

- We work together with the promoters and researchers to define an actuation plan and its milestones.

3°. Investment approval.

- The viability and the investment must be approved by BeAble Capital Fund investment committee.

4°. Creation or participation of the company

- In the case that there is not a created company yet, we will establish it with the promoters. In the case that there is a company, we will participate in its capital.

5°. Provision of resources needed by milestones

- During our participation in the company, we will provide resources like financial, RRHH support and strategy support in IP, grants applications, markets, etc.
Our objective is to grow with you, improving the Spanish business landscape with high competitive industrial companies, jobs opportunities and attracting new talent.
